### **5. What did you like best about the course?**

- writing my own functions
- When I was dealing with a large database, it was always very difficult, but I can already see that there are solutions for many things
- It was nice to see how much it adds to Excel even when I use macros
- The complex formulas were very difficult at the beginning, but I managed to learn a lot
- The instructor's knowledge is at a high level, and he managed to pass this knowledge on to colleagues with different skills
- Solving practical problems with VBA
- learning advanced formulas
- The practical examples, which helped a lot in understanding, so I could better see the use of what I learned.
- customization, flexibility
- The instructor's ability to simplify complex statistical analyses. I didn't become a great friend of formulas, but everything became much simpler.
- I learned some useful tips about macros
- the depth of the taught material
- The instructor's expertise and ability to explain Excel in human language

### **6. If your acquaintances/friends were to ask your opinion, what would you say about the course?**

- You can learn several solutions to a single problem
- This is a very good course, I was in the advanced group, but as I heard, the beginners also learned a lot
- Gain general Excel skills
- If you want to keep up with me, come :)
- It is both challenging and rewarding; by the end you will feel successful
- The instructor's expertise is unparalleled
- this is one of the most useful courses I have taken
- I highly recommend it, I've been to many courses, but this one is among the best, that's for sure
