### **5. What did you like best about the course?**

- New functions learned in the course
- The printed teaching materials can also be used in the future
- Pivot tables and their statistical use
- The comprehensive curriculum and examples offered
- The instructor always focused on the most effective solution
- complex problems are solved step-by-step, so I managed to understand them
- The balance between theory and practice was just right
- The instructor's enthusiasm made the course attractive
- Clear explanations of complex Excel functions
- Immediate feedback during practice
- flexibility as we only covered the topics/functions we needed

### **6. If your acquaintances/friends were to ask your opinion, what would you say about the course?**

- The best Excel course I've ever taken!
- Learn how to use Excel more efficiently, saving you a ton of time
- Don't miss it; it is incredibly comprehensive and well taught
- You will have a completely different approach to data and its analysis
- After the course, you will look at Excel in a completely different way
- you will get to know Excel functions that you didn't even know about
- the course is informative and not boring at all
- I now feel much more confident working with Excel
- we covered a lot of topics during the 5 weeks
