### **5. What did you like best about the course?**

- its customizability
- Vlookup
- We covered many topics, it was varied
- practicality, preparedness, flexibility
- pivot, statistics explanation
- I got a lot of really useful information
- Flexibility (we stopped if necessary, and Imre explained and showed as many times as necessary)
- The lecturer's knowledge is at an extremely high level, and he tried to put this knowledge into the minds of students with different knowledge. It is not an easy task, but the Teacher did it.

### **6. If your acquaintances/friends were to ask your opinion, what would you say about the course?**

- it was good, I recommend it, but they think they know enough about Excel
- It was very good, and I should have taken a similar course much earlier.
- get involved, because you will gain a lot of useful knowledge through it
- I can only repeat myself: "I have never been to such a practical, comprehensible and exciting Excel course!"
- I would recommend it because the course was useful + the teacher is knowledgeable and flexible.
- Very good
