### **5. What did you like best about the course?**

- There are many, many practical examples like the ones I face in my work
- practical education
- I can make much nicer diagrams :)
- Dynamic Excel tables, where even the diagrams are constantly updated!
- Keyboard combinations I've always wanted
- Personalized education
- The instructor's enthusiasm and passion for the subject was contagious
- Protect the workbook and worksheet with a password
- Combination diagrams, arrows, text boxes, so a diagram is different
- practical real examples
- Aggregate functions, I like them better than the pivot table
- The focus is on efficiency and data management best practices

### **6. If your acquaintances/friends were to ask your opinion, what would you say about the course?**

- Go for it, because you will gain a lot of useful knowledge!
- The course has transformed the way I use Excel
- Hands-on experiences and real-life examples make learning enjoyable
- The techniques you learn will be of great use to you
- The instructor makes even complex topics easy to understand
- I have never been to such a practical, easy-to-understand Excel course!
- It was excellent, I highly recommend it.
- The study materials are useful
