### 5. What did you like best about the course?

- There were 11 of us, but the instructor was able to deal with everyone
- VLOOKUP and special formulas with practical applications - I finally understand!
- The instructor was able to explain even complicated topics simply
- Practical experience in VBA
- The real examples
- The text functions. I often have a job where textual data needs to be organized
- Interactive classes - I always got answers to my questions
- VBA Forms
- He presented the curriculum through real life examples
- VBA (Macros)
- He not only covered the material, but also practiced it thoroughly
- The instructor's expertise and the fact that he answered all our questions, explained until we understood
- The instructor's practical tips
- learning about macros
- The instructor's high level of knowledge and simple explanation of complex tasks
- Automate tasks with macros
- Linking data in multiple Excel files
- The real case studies

### 6. If your acquaintances/friends were to ask your opinion, what would you say about the course?

- You will learn how to automate tasks that you never thought could be automated
- You will be able to create much more efficient Excel tables
- The instructor is very supportive and makes it easy to ask questions and learn
- Even without prior programming experience, you can easily jump into the macro course
- Totally worth it, learned a lot of tricks
- This is one of the most useful and practical courses I have ever attended
- If you want to get better at Excel, this course is a must
- I highly recommend it, you will definitely learn a lot
- Perfect for those who uses Excel every day
- It's worth it because you'll learn a lot
- I thought macros were only for IT people, but no :)
- You get a good foundation in VBA programming
- Even if you've never coded before (like me), this course makes VBA easy to master
